

# Council Fails to Reach Decision on Paving Question

**Opposition Develops to Five Cent Fares—Again Referred to Operation Committee**

## SUPPORT PETITION FAVORING PUBLIC OWNERSHIP R'LYS

**City Will Sign and Forward it to Members of Ottawa House**

Appeals from the Single Tax Association of Toronto for official support from the Dominion government of a petition to have the Dominion government demand public ownership of railways and to seek the same support from Mayor McNamara and Alderman Clark. The petition will be signed and forwarded to the members of the Ottawa House.

The Canadian government has given \$2,000,000 to one of the railways and is going to give another \$2,000,000 to the Canadian National East, "yet the people will have no control over the railways," he said.

Alderman Kinney did not know whether the council should support all parts of the petition, but said, "If Mayor McNamara had him not to work, he would be in a better position than the Dominion government at Ottawa paying the least bit of attention to the ownership of railways."

"The people will be asked to vote on the petition," he said.

The letter from the Single Tax Association read as follows:

## TANGLE OVER STREET IS AGAIN DISCUSSED

**Council to Take no Action Till Dispute Between Merritt and Purchasers Settled**

After listening to an argument between lawyers for half an hour over the legal tangle which has arisen over the street in the Merritt subdivision east in Strathcona subdivision at top of the hill, Alderman Clark decided that until Mr. Merritt, the original owner and the people in the subdivision could agree, the council should not proceed.

**Urges Stock Yards**  
City Solicitor Bown suggested in a report that the city ought to get the title to the street in question from Mr. Merritt in any suit over the title to the street in the subdivision which he had to file. Alderman Clark and Driscoll and Shepard ridiculed the proposal. It was late when the mayor's recommendations and the mayor's recommendations and the council adjourned without anything done.

In view of the fact that the city is not crying for payment this year, the city should not be asked to pay for the street, they said.

**Mayor Did Not Like Question**

The mayor was asked if he thought it should be a property owner in Beau Park, and he replied very emphatically that the extensions were coming to property owners.

Alderman Smith replied that there were only a few men in Beau Park who had been buying houses.

**Would Indicate Amount**

Mr. Merritt was asked if the one well would not give sufficient gas to supply the city, but it would not be enough to supply the city and the city could bore other wells.

**Women's Club**

Alderman Clark explained that when Mr. Merritt showed him that his title was not good, he told him to take up with the city solicitor.

He moved that no action be taken until the title was cleared up.

**Meritt Tabled for a Week**

Alderman Clark then stated that when he withdrew his motion and met with the city solicitor, he found that the land he was experiencing tomorrow morning would show Mr. Merritt what he got off with.

The motion at first given was then put and carried.

## COUNCIL BRIEFS

### WANT GROUNDS FOR MOTORCYCLE MEET

A motion was made to the city council by the Edmonton Motorcycle Club for the use of the South Side athletic field for a motorcycle meet on Saturday, May 9. The committee was instructed that if satisfactory arrangements could be made with the club, the motion was to be referred to the committee.

### PROMINENTLY MEETING ... PROPOSAL SHELVED.

"I imagine the mayor suggested it in a meeting with me," said Alderman Clarke, when Mayor McNamara's recommendation for fortifying the city against the proposed five cent fare was referred to him.

"We'll be here until two o'clock in the morning if that's what you want," he said. "I think the mayor does not understand how a man can be asked to go to a meeting in position to make a comprehensive report regarding increased fares."

The mayor was asked for the indefinite shelving of the proposal.

### FRANCHISE APPLICATION REFERRED TO COM.

Alderman Clark, a citizen for a franchise to run a amusement in the east end park was referred to the committee on parks.

The aldermen agreed that some effort should be made to have the franchise in this park, but had widely divergent views as to what constituted "a franchise." One alderman offered to spend \$10,000 in amusement devices within the next four years and the other to return a five or ten year franchise.

### THINK NO NEED

Notification was received from the Union of Canadian Municipalities that amusement devices in the railway yards could be considered in the common. The city was asked to have the railway committee take up the railway committee. The council considered the city's interest in the matter and directed the hands of Secretary Newhall of the union and ordered the letter filed.

### ALDERMAN MAY TO SHIRKHOUSE

Alderman May was delegated to attend the convention of Canadian municipalities in Shreveport, La., April 5 and 6. A number of the aldermen were asked to go along to represent the city, but he absolutely refused to attend if named. Alderman May is one of the vice-presidents of the union.

## MAYOR M'NAMARA GIVES REASON FOR DROPPING YEAR'S PAVING PROGRAM

His Supporters, Aids, Driscoll and Shepard, Oppose Him and at 12:15 Council Adjourns With No Taking Any Action on Question—Mayor Has a Clash With Driscoll

That even without paving, \$42,000 will be required to carry on the paving program. In this year, while \$1,500,000 will be spent in finishing work planned by the city, the cost of paving is only twice as much money as any other paving project planned for this year.

Edmonton already has more paving than any other city in the West. It has now \$3,250,000 worth of paved streets, and the city debt of all work planned for this year is carried out, will be \$3,500,000. The total debt will be \$394 at the end of the year.

Most of the city is to be pledged, stock yards are more vital at present than paving, and the reasons advanced by Mayor McNamara are not good enough when we urged the aldermen to abandon the entire paving program.

**Speaks of Per Capita Debt**

He laid emphasis on the tremendous per capita debt of the city, and urged the council that in his trip to the East he had found that the city of Calgary a city among buyouts.

In this case our mayor urged very strongly against laying a yard of paving, and, as far as I can see, his usual supporters in the council in this case are Driscoll and Shepard, and Driscoll and Shepard ridiculed the proposal. It was late when the mayor's recommendations and the mayor's recommendations and the council adjourned without anything done.

**Driscoll: Why Did You Let Us Spend Two Months on This Estimate This Year?**

Major McNamara declared that for economic reasons he advised unqualifiedly to drop the paving program.

## BOARD OF TRADE IS STRONGLY IN FAVOR CIVIC STOCK YARDS

Live Stock Commissioner Stevens  
Urges City to Embrace the  
Project

### CAN BE GREATEST LIVE- STOCK CENTRE IN AMERICA

Many Industries Will Follow the  
Establishment of Additional  
Packing Plants Here

(From Evening Edition)  
Manitoba owned stock yards, on land which it now owns, Stevens, on behalf of the stock commission, were endorsed by many times resolution of the Board of Trade in its annual session, yesterday, in Winnipeg Auditorium. The resolution, which was adopted, was the adoption of the report of the special committee appointed to "investigate the advisability of establishing a civic stock yard, and to advise the Board of Trade as to the best method of service; the passing of a resolution indicating the desirability of a uniform system of measurement; and of a resolution opposing any move toward the construction of a stock yard in the city, until the report of the Royal Commission on Stock Yards, which is now in the hands of the government.

**Hudson Bay Ring**  
The Hudson Bay ring was doubtless the first in America, had so much influence in the development of the fur trade or so assured a market for the output of stock yards. Mining has been developed in Manitoba, and already, established to the north and west, and there is no reason why a similar import would be provided from abroad, and the same distribution centre for such products.

"This is not to say," he continued, "that we do not believe in the success to which by her situation and resources she can attain, and she puts forward her best efforts and acts intelligently."

#### Industries to Follow

Dealing with the question of location, Stevens said: "It is a mistake to try to recruit a stock market, as long as only two purposes of slaughter, meat and hides, are to be sold. There would be in horses, dairy and worker cattle, and in the future, in swine, and also, grain, pulp-gum and trunk factories, which would be required to secure these industries, also upon the land still available."

Finally, the stock yards should be established at the point where the large packing firms already established in the city are located. Thirdly, the Edmonton stock market must be an open market—open to any man who wants to buy or sell, and a general competition above suspicion, for the benefit of the public, and larger concerns, for their own profit, to harm or embarrass the small market."

#### Whys of Best Editors

Mr. Stevens' views, however, are the requirements of an up-to-date stock yard, the attainment of which is probably the best guarantee of the best cities.

He also supported the resolution in support of the municipal stockyards proposed by Mr. George M. Stevens, M. H. MacLeod, with Canadian Northern, Mr. Stevens stated: "Mr. Stevens' estimate of the acreage which would be required is reasonable, and for a ten years. Mr. Stevens' final following that while former's more female cattle were slaughtered than males, the latter were more numerous, those sent to the abattoirs being females, and the result of the increase in the production of sheep had resulted in the last four years in a consequent decrease in the five years' time, there were 100,000 more sheep grazing in Edmonton; 40 acres would be required for each, 400 acres for horses, dairy and swine, and 20 acres for a piece of the packing plants."

#### Report of Council

Salient features of the report of council, which has been freely received publicly, were particulars of compensation to be paid to Mr. M. H. MacLeod with Canadian Northern railway in regard to service on the line between Edmonton and Fort Saskatchewan, and of which financial assistance was given to him by the minister of customs in regard to the practice of taking goods to the
